

# BADGER TALKS

---

## University of Wisconsin Experts in Medicine and Healthcare Available for Staff Development and Learning

### **CAROL VAN HULLE**

Associate Scientist

**“Alzheimer’s Disease  
Research at the University  
of Wisconsin”**

Dr. Van Hulle is an academic staff scientist with the Alzheimer’s Disease Research Center. Her research focuses on subject memory complaints and cerebrospinal fluid-based biomarkers for early detection of Alzheimer’s disease.

### **JAMES CONWAY**

Professor of Pediatrics

**“Understanding Vaccine  
Hesitancy”**

Dr. Anderson’s lab works on aging biology and how diet can influence health during aging.

### **ROZALYN ANDERSON**

Associate Professor

**“Understanding Aging  
Biology”**

Dr. Anderson’s lab works on aging biology and how diet can influence health during aging.

### **STEVE BARCZI**

Professor of Medicine

**“Sleep, Health and Aging;  
Sleep and Cognition”**

Dr. Barczi is a clinician-educator specializing in geriatrics care, memory care and sleep disorders. He has helped develop new models to optimize care of older persons and has created curricula that support competency-based education for many different health-care disciplines.

These are just a few of the 200 speakers available to give Badger Talks at no cost around Wisconsin. We invite you to search for speakers by topic or keyword on our website, and click the Request a Speaker tab to submit a request.
