Medicine and Public Health

## About the Presenter

Dr. Gilda Ennis is a Scientist at the Alzheimer's Disease Research Center, UW-Madison School of Medicine and Public Health. She has always had a passion for studying factors that influence cognition in older adulthood. Dr. Ennis has been involved in research at Georgia Tech and at North Carolina State University, where she received her PhD. She has participated in the Alzheimer's Association International Conference (AAIC) for the last four years with poster presentations.
