Join us for an exciting day on

COMPASSIONATE LEADERSHIP

Featuring Mandi Dornfeld, MS, Association of Professional Coaching (APC), holds several professional and multiple personal roles. She is a certified coach and seasoned trainer.

A lifetime of searching for golden moments has led her to piecing together a busy and diverse life that suits her personality perfectly. It was a difficult journey and she spent too much time looking for the pot of gold at the end of everyone else's rainbow. Through her journey of trial and error she has learned you don't need to chase rainbows, but rather, you can create your own with the right amount of preparation, exploration and just a little bit of luck.

This event is free and open to all 2023 ADPAW members. The fee for non-members to participate is \$75. See accompanying registration form.
