

Looking to buy sell redevelop a brownfield?

Across Central Vermont former commercial and industrial sites are being transformed into housing, commercial space and public amenities. City Place (top photo) and the ReStore (middle photo) in downtown Barre and the former Woodbury Store (bottom photo) are all examples of brownfields redevelopment projects in our region.

Whether you are a commercial lender, realtor, property owner, prospective purchaser or municipal official join us at the upcoming **brownfields + bagels** morning event to:

- Learn about how to approach any commercial or industrial property and understand liability and due diligence responsibilities.
- Understand the environmental assessment and clean up process.
- Hear about the Brownfields Reuse and Environmental Liability Limitation Program (BRELLA).
- Discuss funding & technical assistance resources.
- Enjoy complimentary bagels and coffee.

Event presented by VT DEC and hosted by CVRPC. For additional information about the event please contact Clare Rock rock@cvregion.com or at 229.0389
RSVPs appreciated but not required.
